Broad-shouldered variety with sweet, old fashioned carrot flavor. Wide shoulders, a tapered root, and a blunt, rounded tip; thrives in heavy soils. Fine grained texture and a characteristic red core. A great variety for soups, freezing, canning, and storage. Introduced from France in the late 1800s. • 6” Chantenay-type.
Solid heads are somewhat variable in size ranging from 3-4 lbs and 6-8" in diameter with uniform maturity. Compact plants sit close to the ground, handy for smaller gardens. Heads hold well before and after harvest. Great for slow cooking, slaws and sauerkraut! Early and adaptable • 3-4 lb heads

Spectacular array of colors in a high yielding bell pepper. Purple and yellow peppers ripen to tangerine and red streaked with purple. Immature fruits are dark purple, lavender, pale yellow, and occasionally lime green.
Buttery pale yellow petals contrast nicely with a wide brown center. This wellknown variety has one large main flower followed by smaller, branching secondary flowers of excellent quality. Each flower has a long stem and holds well in bouquets. Plants bloom for a long period of time. Excellent cut flower • Attracts bees and butterflies • 5-7’ tall.

Milkweed is an Ohio native that is the sole host of the Monarch caterpillar. Monarchs are becoming increasingly threatened due to habitat loss and the use of herbicide. Growing milkweed in your garden is a simple way to contribute to the effort to save the Monarchs!
Attractive, sunny mix of yellow, orange, rose and crimson flowers on trailing plants. Delicate lily pad-like leaves are just as attractive as the bright flowers. Edible flowers and foliage are a gourmet treat with flavor reminiscent of peppery watercress. Perfect for hanging baskets, containers or in the garden.

Rivals Brandywine as the best-flavored heirloom tomato with silky texture. Pruden’s is not really purple, but rather a deep pink with slight shoulder ribbing. Fruits are large, often close to 1 lb each, but smaller than Brandywine. Plants have potato-shaped leaves. Indeterminate • 12-16 oz. fruit
Bright purple stems and slate green, deeply lobed foliage. Leaves are tender, smooth and very sweet compared to other kales. An incredibly cold-tolerant variety that improves in flavor with cold weather. Popular ingredient in baby leaf salad mixes or as full size bunches. 24-36" tall
